

# EZ-Pilot

## ASSISTED STEERING SYSTEM

The EZ-Pilot® assisted steering system provides high-accuracy steering at an affordable price. When you are driving your vehicle the EZ-Pilot assisted steering system turns the steering wheel for you with an electric motor drive using GPS guidance from select Trimble® displays.

While the EZ-Pilot system keeps you on line, you can focus on many different tasks, such as sprayer or planter performance, improving job quality and crop yields.

### REDUCED FATIGUE

With hands-free guidance, the EZ-Pilot system allows you to operate with ease and improve safety on your farm.

### CLEAR ACCESS TO CAB CONTROLS

The EZ-Pilot system integrates directly into the steering column, providing clear access to all instrument panels with no decrease in leg room in the cab.

### OPTIMAL PERFORMANCE

The EZ-Pilot system allows you to maximise your uptime by helping you complete field operations quickly, efficiently, and productively.

### INTEGRATES INTO THE ENTIRE FLEET

The EZ-Pilot system's quick-responding, high-torque motor is able to effectively steer various agriculture vehicles within the fleet, no matter the make, model, or year.

### QUICK DISENGAGEMENT

The electric steering motor allows for unrestricted manual steering when assisted steering is not engaged.

### DISPLAY COMPATIBILITY

The EZ-Pilot system is compatible with the Trimble TMX-2050™ display, FmX® integrated display, and CFX-750™ display—all of which provide a variety of accuracy levels for any operation.

## Key Features

- ▶ High accuracy at an affordable price
- ▶ Turns the steering wheel with a compact electric motor drive
- ▶ Integrates directly into the steering column for clear access to cab controls
- ▶ Allows for unrestricted manual steering when assisted steering is not engaged

# EZ-Pilot ASSISTED STEERING SYSTEM

## HIGH PERFORMANCE

- ▶ Higher torque steering motor than competitive systems allows unit to steer vehicles with rigid power steering systems, such as floaters.
- ▶ Fast-reacting motor allows system to quickly get the vehicle online and stay there.

## EASY INSTALLATION

- ▶ Simple cabling and IMD-600 (T3™ Enhanced Terrain Compensation) is small enough to mount anywhere in the cab
- ▶ Simple plug-and-play installation requires minimal tools and time to you get back to work more quickly
- ▶ Professional-looking installation

## INCREASED CONTROL IN ANY FIELD TYPE

Advanced T3 sensors built into the EZ-Pilot system module keep your vehicle on line. With these sensors, your steering accuracy is improved in difficult terrain—helping minimise skips and overlaps between passes.

## SUPPORTS A VARIETY OF VEHICLE TYPES

- ▶ Tractors
- ▶ Spreaders
- ▶ Tracked vehicles
- ▶ Combines
- ▶ Articulated tractors
- ▶ Floaters
- ▶ Self-propelled sprayers
